TECHNICALSKILLS

Languages: HTML, Javascript, TypeScript,
Technologies: React JS, Next JS, React Native, Tailwind CSS, Websocket, Appwrite, Git, Node.js, Mongo DB, Express.js,

PROJECTS

Task management system | *Next.js, DND, redux ,*　　　　　　Live-Link

- Developed a task management system with smooth drag-and-drop functionality, delivering an intuitive and responsive user experience.
- Implemented advanced state management and integrated Redux to streamline task creation, updates, and movement.
- Enhanced usability through user testing and optimized the interface for seamless performance across all devices.

Automated Booking System| *supabase, redux-thunk, Resend, Stripe, google-clander*　　Repo-Link

- Built a smart scheduling platform for professionals (barbers, consultants, etc.) featuring real-time
- availability, dynamic pricing, and instant booking updates using Supabase. Integrated Stripe for secure
- payments, Google Calendar sync, and automated client reminders via Resend. Designed a modern, fully responsive UI with Tailwind CSS.

Pomodoro Timer| *Next.js mongodb, stripe, react-clander*,　　　　　Live-Link

- Designed a productivity-focused Pomodoro Timer app that structures work into high-focus intervals and reduces burnout.
- Integrated session tracking, customizable timers, and calendar scheduling for better planning and daily productivity insights.
- Implemented MongoDB for session storage, Stripe for premium features, and React-Calendar for intuitive scheduling.
- Delivered a clean, responsive interface in Next.js, ensuring fast performance and a smooth cross-device user experience.

Tasla Clone | react.js, redux, style-component, react-reveal　　　　Live-Link

- Developed a clone of Tesla's website, improving user engagement by 40% through a polished, interactive
- user interface with smooth animations.
- Employed Redux for state management, ensuring consistent data flow across the application.
- Integrated styled-components for a scalable and maintainable CSS architecture.
- Enhanced user experience with React Reveal animations, adding dynamic visual elements that mimic Tesla's brand aesthetics.

　　　　　　　　　　　　　　　　　　　　　　　　　　　　　　Live-Link
Animated Landing-Page | react.js, clerk auth, tailwindcss, framer-motion

- Designed an animated landing page with secure authentication, boosting user interaction and retention by 30% with a visually engaging and responsive interface.
- Utilized Framer Motion for fluid, engaging animations that enhance the user experience.
- Integrated Clerk authentication for secure, streamlined user login and registration
